...plause from from hundreds of craft with which the Gotham Yacht Club Commodore Jas. G. Stone stood in the roundhouse hat in hand, his husband standing on deck cool and confident. Capt Stone stood the Mayflower, with Joe Ellsworth at his elbow and General Paine near the wheel. The official start was Galatea, 10 05 11; Mayflower 10 56 15.

Both yachts stood across the channel on the starboard tack and began their battle for the America's cup, tacking close under the Long Island shore. At 11 30 they made a stretch over for Staten Island. The Mayflower held the windward position and with the last of the ebb, flood and her lee boom she managed to keep it and began to forge ahead. The cutter at once. Hundreds watched this first part of the battle from the heights of Fort Wadsworth and Hamilton. At 11 02 the Galatea set her jib topsail and at 11 12 the Mayflower tacked close under the quarantine cutter following suit a minute later. The breeze was freshening every moment and the prospects for a hard race were encouraging. The large fleet of accompanying steamers made trouble for the yachts and they had to be chased away by the judges' boat.

When the Mayflower tacked to port at 11 21 she had Fort Lafayette under her lee quarter, while the Galatea was just under Fort Wadsworth. The Boston sloop crossed her bow fully a quarter of a mile to windward three minutes later, and kept steadily increasing her lead. At 11 50 when the Galatea had tacked to port near buoy 16 the sloop was leading her by three quarters of a mile. The flood tide had just begun to make and Capt Joe Ellsworth, who piloted the Mayflower was working for all he was worth. Capt Sam Gibson, pilot of the Galatea was also doing his best in this direction but the cutter was not equal to the occasion. Hastily the sloop tacked with the sloop and going about at 12 30 half the port tack while the Mayflower made two and gained by the operation fully half a mile. Both then made short boards for buoy No 6, the next turning point, the Mayflower leading around it at 1 01 51, and the cutter at 1 07 0. They were greeted with a perfect ovation of whistles from attending steamers as they flew away with sheets starboard for buoy No 5. The Mayflower passed it at 1 18 and the Galatea at 1 25.

To buoy 8½ the Mayflower had already beaten the cutter five minutes. From here to the outer mark, the Sandy Hook lightship the contest was extremely pretty. The Mayflower slowly outfoot ed the cutter, and tacking for the outer mark at 2 27 30 came grandly along for it on port tack. As she squared away" round it a few minutes later and her big balloon topsail blossomed out of its stops the whistle serenade that was given her could be heard for miles. The official time of turning was Mayflower, 2 35 02 Galatea 2 44 30. Both made a splendid picture as they rounded the lightship. To this point the Mayflower had now beaten the Galatea five minutes and she was fully two miles away when the latter squared away.

Back to the northward came a great flotilla of steamers with their freight of enthusiastic admirers. The Mayflower with her big balloon jib topsail bellying out in the now strong breeze came racing by buoy 8 on the home stretch at 3 34 just as the Galatea was passing the point of Sandy Hook. The latter passed the buoy at 3 40 and both angling over to port came grandly down to the finish on the flood tide. Finding that the spinnaker would not draw Lieutenant Henn ordered it set to starboard. At 4 13 Captain Stone, finding the cutter overhauling him followed suit and set the Mayflower's spinnaker sail four minutes later. What a grand sight that finish was only an eye witness can tell. It was the grandest marine spectacle ever seen in New York bay. Surrounded by nearly 500 steamers and sailing craft the Mayflower came towering along through them and crossed the finish line amid the firing of guns, screeches of whistles and waving of acres of bunting and handkerchiefs.

The next contest will be sailed on Thursday over a course 30 miles to windward or leeward starting from Sandy Hook lightship.

Geronimo's Capture

WASHINGTON, September 7.—General satisfaction was expressed at the war department upon the receipt of the news of Geronimo's surrender. Great praise was bestowed upon General Miles for his excellent conduct of the campaign. General Crook's work is not forgotten. It is said the results of Crook's campaign were of great value to Miles. Captain Lawton had also distinguished himself as a gallant officer, and his pursuit of the hostiles under adverse conditions and hardships was thoroughly commendable. The acting secretary of war was not prepared to say what disposition would be made of the captives, but certainly, he said nothing would be done in the matter until the president's wishes were known.

Officers of the department were especially gratified at learning that Geronimo's surrender was unconditional. The opinion prevails in some quarters that the Indians will be transferred from the custody of the interior department to the military, and that Geronimo and his band will finally be surrendered to the civil authorities of Arizona under a writ of habeas corpus, upon trial for murder, with a result that would require little skill to guess. An officer of high rank however, intimated to the belief that the president will never consent to surrender Geronimo to the civil authorities to be tried by a jury of his peers. The same officer said that the cost of the campaign would be of inestimable value to the territory of Arizona as the hostiles had not ravaged and harrassed an area of rich country two hundred miles square as to render it uninhabitable.

BEYOND THE SEAS.

Formidable Indian Uprising Against England Reported.

Bulgarians Indignant at the Czar's Letter to Alexander.

Russia Shipping Troops Presumably to Bulgaria.

Russia Distrusted

SOFIA, September 7. Prince Alexander has hurried for the frontier. Russia agrees to all the principal points of the demands of the notables and further declares her intention of holding the great powers of these engagements. The Bulgarian government has addressed a demand to the powers signatory to the Berlin treaty to guarantee Russia's promises. Another meeting of army officers was held here tonight when they again favored the retention of Prince Alexander. The commandant of the Widdin garrison telegraphs that he is ready to march on Sofia to suppress any cabinet that acquiesces in the prince's abdication. Russia's reply is received with great distrust.

Trouble in India Reported

PARIS, September 7.—The Journal des Debats publishes to day a sensational report about an alleged uprising of the people of northeastern India against British rule and in favor of a Russian invasion. The report says that a number of Indian princes have followed Whuleep Singh's example in joining Russia and exorting the people to throw of the "hated English yoke." The Journal des Debats says grave events are imminent in Central Asia.

Bulgaria's Regency

SOFIA, September 7.—MM Stambuloff, Karaveloff and Mustarpff constitute the regency. The Stambuloff cabinet has resigned and a new ministry has been formed as follows: Premier and minister of the interior, Rafeloff, minister of foreign affairs, M Nacevious, minister of finance, M Gutshoff, minister of justice, M Stoiloff, minister of education, M Ivanchoff, minister of war, M. Nicolaieff.

Bulgarians Indignant

LONDON, September 7. The czar's reply to Alexander's letter of August 30th, was not made public here until yesterday. It raised a storm of popular consternation and indignation. Many officers of the army advocate resistance if Russia forcibly deposes Alexander against the will of the people.

Alexander and His Friends

SOFIA, September 7.—Prince Alexander twice met officers of the army who called to persuade him to remain on the Bulgarian throne. On each occasion he besought them to refrain from opposing his departure. The officers expressed deep sorrow but promised to follow the prince's wishes. Prince Alexander will leave Sofia September 13th.

Russia Shipping Troops

VIENNA, September 7. The Neue Freie Press says many troops are being shipped at Odessa, ostensibly for the Crimea, but really, it is believed, for readiness for action in Bulgaria.

Vermont Issues

WHITE RIVER JUNCTION, September 7. Although this is an off year and there are no questions of public policy of a very important nature to be decided by to day's election, it is evident that both the republican and democratic parties will poll a vote largely in excess of that usually cast in an off year. The relative strength of the two principal parties in the state as exhibited in previous elections remains unchanged. The main issue for republicans involves the election of a United States senator to succeed Edmunds. Democratic managers are making strenuous efforts to poll a large party vote. There are three tickets in the field, viz. Republican, democratic and prohibition. The offices to be filled are governor, members of congress, treasurer, auditors and secretary of state.

WHITE RIVER JUNCTION, September 7.—Thirty one towns give Governor Ormsby, republican 5502 votes, and Shurtleff, democrat, 3554, majority for Ormsby of 2.5 Out of the 31 towns 22 are for Edmunds. From six there is no return, and they have no choice. Returns are coming in very slowly.

Shooting Affray at Ouray

DENVER, September 7.—A News Ouray special says: A shooting affray took place this evening in which George Hell was seriously if not fatally wounded by W H Fourell. The affair was witnessed only by the Bachman Brothers in whose store the unfortunate affair occurred, and they refuse to be interviewed. Both balls entered to left shoulder and ranked down, one one inch, about six inches below the shoulder blade, and there, it is feared, is lodged in the spine. Dr Worthington the post surgeon has been telegraphed for and the father of the wounded man notified. Fourell claims he acted in self-defense and succeeded to the sheriff.

K. of L. Reorganization

PITTSBURG, September 7.—It is understood that at the national convention of Knights of Labor at Richmond next month, changes in the present laws will be made amounting to the complete reorganization of the order. State assemblies under the new plan, will have control of the territory under their jurisdiction but the acts of their officers will be subject to reversal by the general master workman. Thus Mr Powderly will retain supreme control while regaining relief from the routine work that now lays on his shoulders. The plan has been thoroughly canvassed since the adjournment of the Cleveland convention and there is little doubt but that it will be adopted.

Another Shock

EVANSVILLE, Ind., September 7.—Another severe shock of earthquake was felt at 1 44 o'clock this morning. The shock sounded like an explosion of dynamite.

CHARLESTON, September 7. A very light earthquake shock lasting five seconds was felt here at 11 42 this morning.

ATHENS, September 7. A fresh earthquake was felt to day in this city, Kavrita and elsewhere.

AUGUSTA, September 7. Two slight shocks were felt here to-day, one at 11 30 a. m and the other at 4 30 p m.

Arkansas Election

LITTLE ROCK, September 7. Returns from state and county elections yesterday are meagre but are sufficient to show the election of the democratic state ticket by a large majority, the third party movement or labor ticket getting a very small vote. The legislature will be democratic by about the usual majority.

Subscriptions for Charleston

NEW YORK, September 7. Vice President James W Alexander of the Equitable Life Assurance society has issued a circular instructing agents of the association in all parts of the world to solicit subscriptions for the benefit of Charleston sufferers.

Morrison Renominated

ST LOUIS, September 7.—The democratic congressional convention of the Eighteenth Illinois district which met at Greenville, Ills., to day nominated Hon W R. Morrison.

A Mexican Revolution

ST LOUIS, September 7. A Globe-Democrat Eagle Pass special says: The long threatened revolution in Coahuila, Mexico, has at last developed into definite shape. News has been received from Piedras Negras that a band of revolutionists yesterday seized the town of El Paso, Mexico and took complete possession of it. During a circus in Piedras Negras all able-bodied men were arrested and pressed into the military service and placed in the quartel for safe keeping during the night. This morning, 150 strong they mounted on confiscated horses and accompanied by 100 regular soldiers were taken to El paso to combat the revolutionists, who are supposed to be under the leadership of El Coyote Mexico's most celebrated bandit and revolutionary leader. When the opposing forces come together hard fighting may be expected. The revolution just inaugurated will be hard to suppress, for the rebels are ably commanded and well supplied with money and provisions. There is a great amount of dissatisfaction in that state with the government, and this fact alone has drawn many to the revolutionists' standard. People who are best acquainted with the Mexican character predict a great political upheaval within six months.

VICTORIA, Tamaulipas, Mexico, September 7. Governor Cuelar is in receipt of telegrams informing him that Hilaro Roderiguez Martinez, brother of the famous Coyote, crossed the Rio Grande near Reina leading thirty three Texans and Mexicans to join the revolutionists.

A Fearful Fall

INDIANAPOLIS, September 7.—This afternoon while a force of men was engaged in tearing down the old Young Men's Christian association building preparatory to the erection of a new one, the springing of an inside wall threw down an upper tier of joists upon which were 21 workmen, precipitating them all to the floor below, about 20 feet. All of the men were more or less injured but seven were caught in the debris and had to be extricated. Of these it was found that four were dangerously, perhaps fatally injured. They were: Albert Schumacher skull fractured; B Dorleth, collar bone broken and internal injuries, Henry Miller, leg broken and internal injuries, Oliver Warren, hip crushed. The others severely injured are: Henry Schumacher, leg broken; Lew Fisher, scalp wound, Gus Alexander, internal injuries.

Saved from Sin

MONTGOMERY, Ala., September 7.—A special to the Advertiser from Gadsden, Ala., gives an account of a horrible crime by a negro parent, Gabe Watts. He lived 10 miles in the country in a cabin with his three children the eldest 10 years of age. Recently he expressed a wish to get rid of them and a few nights since just before day he knocked all of them in the head with a stick, piled up the bedding on the floor, set fire to the house, fastened it and left it. The fire was discovered, but when taken out the eldest child was dead and the other two barely alive, the skulls of both broken, fractured. Gabe has been arrested. He confessed the crime and said he did it because he did not want the children to fall in the ways of white folkies.

Flight of a Swindler

MONTREAL, September 7.—The liabilities of Leopold Isaacs, the absconding tobacco merchant of this city, exceed $100,000, with practically no assets. It is stated several forgeries and other swindling schemes have been brought to light and that steps will be taken to secure Isaacs' extradition. He is in Philadelphia.

Northern Mexico has a formidable revolution under Coyote, which is likely to give the federal government some trouble. Restless spirits on the border, who were disappointed in the outcome of the Cutting affair, will assist in maintaining disorder

Our dispatches give an account through French sources of an uprising in India against English rule. It may be denied, but would be a natural consequence of Russian intrigues and lavish expenditure of treasure. To the East Indians a change of rulers would matter little, and would probably be welcomed

A plan for reorganization of the Knights of Labor, which has been favorably received and will probably be adopted at the convention next month, will strengthen the position in the public estimation. The principal change will place supreme control in the grand master workman. It was the lack of this power that nullified the efforts and good intentions of Powderly in the strikes of last spring

The international yacht race at New York yesterday was hardly close enough to be interesting. The Boston sloop was really two miles ahead at the finish. The next trial will give the English yacht a better show, as her admirers expect that the race of twenty miles to windward at sea will show the superiority of the cutter built. Considering the decisive victory over the inside course there appears but little doubt as to the final result

The detailed statement of the educational facilities of this city, which is published for another page of the issue, cannot fail to impress those not fully informed with a sense of the fact that Colorado Springs enjoys exceptional advantages for the education of her youth. An excellent education may be acquired here which is appreciated by many with whom our schools form an important consideration in the choice of a residence in Colorado

The authorities at Washington are reported as pleased with the fact that Geronimo surrender was unconditional. This relieves them of the duty of pardoning the captive on the president. Many sentimentalists of the east will urge his confinement in Florida. On the other hand the west will demand his death. No one authorized to speak on the matter is now in Washington, but the whole force of the powers that be have shaped that he will be tried by court martial or be turned over to the civil authorities of Arizona

The Vermont election was held yesterday. No doubt was entertained of the success of state officers or congressmen but considerable interest was taken because the next legislature will elect a successor to Edmunds. A large majority of the towns will have reported and have elected Edmunds members and the senator will undoubtedly succeed himself. Naturally many republicans of Vermont disapproved Edmunds' course in the election of 1884 but his retirement is another matter. Too much pride is taken in his work as leader of his party in the senate to make his overthrow possible

The New York Tribune reminds superstitious readers that this is the year for which a thirteenth century prophet foretold dire happenings. It says "What with earthquakes and cyclones the year 1886 has already attained what John Milton would have styled 'a bad eminence.' But a cordial to an old prophet who flourished in the thirteenth century, it is to yield other notable things before it passes away. He foretold as The St James Gazette recalls that during this year there would be a revolution in one of the great states of Christendom, that a new form of government would be established in a republic, that a great prince would ascend a throne that the grape crop would be good in only a few districts. Of course there is nothing in the constitution of the United States that entitles one to take stock in any of the prophecies. But it is only fair to the prophet to state that it is reported that he foretold the appearance of Napoleon the Italian war and other matters of moment. It certainly looks as though this year would bear watching."

A Triumph for the Frenchman

It is related of General Von Manteuffel the late German military governor of Alsace who hated all that was French that he once at a public dinner engaged in a dispute with a French diplomat who maintained the superiority of the French workmen over the artisans of all other nations. "A thing so ugly does not exist that the skill and genius of a Frenchman cannot make of it a thing of beauty," he said. Angered by this contradiction, the old soldier pulled a hair from his bristly gray mustache and handing it to the Frenchman, said curtly "Let him make a thing of beauty out of that, then, and prove your claim." The Frenchman took the hair and sent it in a letter to a well known Parisian jeweler, with a statement of the case and an appeal to his patriotic pride, giving him no limit of expense in execution the order. A week later the mail from Paris brought a neat little box for the general. In it was a hand some scarf pin made like a Prussian eagle that held in its talons a stiff gray bristle, from either end of which dangled a tiny gold ball. One was inscribed Alsace, the other Lorraine and on the eagle's perch were the words "You hold them but by a hair."

Electric Belt and Suspensory — For all Personal Weakness of men

We take pleasure in announcing that we have secured the agency for our Electric Belt of Clark Stanley, Esq., of Providence, Rhode Island, who is now at the head of the electro medical profession, and radical reformer of all other belts that have ever been offered to the public. Clark Stanley's Electric Belt is recommended by the U. S. Government, the recent patents issued and arguments and therefore unnecessary. This belt will be found the current into vital column, which is the grand nerve centre of the body and also kidney circuits to the stomach, liver, bowel organs, or any weak or diseased part of upper centre, or any part of the body. It will positively cure Nervous Debility, Pains in the Back, Hips or Loins, Lumbago, Sciatica, Kidney and Bladder Diseases, Neuralgia, Dyspepsia, all Weaknesses of the Sexual Organs, or any weak or diseased part of upper centre, or any part of the body. It will positively cure Nervous Debility, Pains in the Back, Hips or Loins, Lumbago, Sciatica, Kidney and Bladder Diseases, Neuralgia, Dyspepsia, all Weaknesses of the Sexual Organs, or any weak or diseased part of upper centre, or any part of the body. Electric Belt free with every belt.

We take it for granted that every lover of an honest article will send for the BEST MADE, and believe it to be the duty of every man to call and see this new belt before buying, as it costs no more than the inferior old styles produced in a rough manner, lack style, and is indestructible. We warrant it to last for years, and when properly cared for, will last a lifetime. In addition to our regular other TO MEN, we are offering personally, agents wanted especially now, and we are glad to give the highest private references as to what we have done and is doing. Get our Illustrated No 1 Illustrated and certainly full information. By mail free on application.

Educational Facilities of Colorado Springs Enumerated

Facts Concerning Our Institutions of Learning.

Study of Colorado College--Public School Statistics

[illegible] perhaps no city of its size in the [illegible] is certainly none in the west, [illegible] such ample educational facilities [illegible] Colorado Springs. Without any [illegible] means of education which are here [illegible] will rank with those of any city of [illegible] the country. It has always been [illegible] boast of our city that her educational advantages have been far above the average enjoyed by cities of the same [illegible] as for us these statements [illegible] substantial corroboration. In the [illegible] and size of our public buildings in the future number [illegible] seminaries. In Colorado college, and [illegible] exercise until the schools, but more [illegible] the high standard of education [illegible] has been established in all our institutions of learning both public and private [illegible] recognized ability of those to whom [illegible] educational interests of our community have been entrusted. That the people of this [illegible] may come to take pride in their schools [illegible] doubt but firmly believe that each [illegible] will see substantial improvement in [illegible] relating to our educational facilities. An enumeration of the educational institutions connected with our city may not be [illegible] at this time as nearly all of [illegible] with possibly one or two exceptions [illegible] for the year. We begin with

COLORADO COLLEGE.
